Semester:	SWAYAM Roll No / Email:

Course / Domain Name: _____

Faculty Counsellor Name: _____

A. Application of Technical Knowledge and Skills

- ☐ Applied baseline branch engineering concepts to the course modules.
- ☐ Utilized recommended software tools, languages, or simulation platforms locally.
- ☐ Successfully compiled and executed standalone code blocks or practical exercises.
- ☐ Learned new technical frameworks or advanced technological methodologies.

B. Problem Solving and Learning Ability

- ☐ Identified core mathematical, algorithmic, or technical problems in the lectures.
- ☐ Analyzed problems and solved the weekly assignment/quiz questions.
- ☐ Resolved execution bugs or environment setup blocks independently.
- ☐ Acquired deeper theoretical or operational insights during the week.

C. Course Discipline and Communication

- ☐ Maintained consistent watch-time and finished all scheduled lecture videos.
- ☐ Worked cleanly through self-study materials or engaged with the discussion forum.
- ☐ Communicated progress updates or attended scheduled reviews with your faculty counsellor.
- ☐ Completed and submitted the weekly portal assessment prior to the deadline.

D. Progress Tracking, Documentation, and Reflection

- ☐ Updated your personal weekly logbook, code notes, or learning portfolio.

- [] Compiled technical notes, quiz receipts, or screenshots of runtimes on time.
- [] Reflected on how this module maps to your Course Outcomes and SDGs.
- [] Outlined core target modules and chapters to cover for the next week.

Weekly Progress Summary (Brief)

Major Modules & Activities Completed:

Key Learning Outcomes Achieved:

Plan for Next Week:

Verification

Reviewer	Remarks / Assignment Score	Signature & Date
Student Self-Validation	I certify completion of this week's modules honestly.	

Date: _____
